

Press Release

FRITSCH at the 20th POWTECH 2017

Since more than 15 years FRITSCH is part of the Trade Fair POWTECH!

FRITSCH • Milling and Sizing at POWTECH 2017

This year the POWTECH has been as international as never before: 835 exhibitors from 29 different countries and right in the middle FRITSCH GmbH • Milling and Sizing.

On Tuesday, the 26th September 2017 the international fair started and the **FRITSCH** booth also radiated in a new, clean design. Besides new billboards, illuminated cubes for the instruments provided a bright and welcoming appearance. Display with the corresponding product videos attracted interested visitors to inform themselves about the FRITSCH instruments.

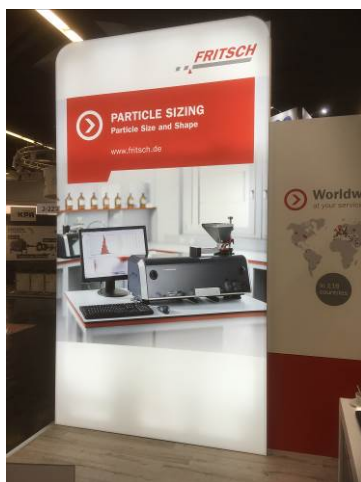

During the first day, already a variety of visitors stopped by at the FRITSCH booth, where they had the opportunity to discover the latest innovations about Milling and Sizing.

In the field of sample preparation the trade visitors had the chance to have a look at the Variable Speed Rotor Mill **PULVERISETTE 14 premium line**, offering impact, shearing and cutting comminution in one instrument

With a total of more than 14.000 visitors from different industries, for example the bulk industry, the FRITSCH application consultants had plenty of opportunities to answer questions concerning different applications.

This year a new member in the FRITSCH-Team is Mr. Thomas Stratesteffen, who works in the sales department as an application consultant since September 2017.

Also in the field of Particle Sizing there were new innovations to discover: FRITSCH Application Consultant Dr. Günther Croll informed about the modified Particle Sizer **ANALYSETTE 28 ImageSizer**, now also available for measurement of particle shape and size of suspensions and emulsions.
