*Digital Rate & Total Indicator*

The Pulsite Solo from Titan Enterprises is a low cost, digital rate and total display indicator that is adaptable to suit almost any flow and rate measurement application across the manufacturing sector.

**Requiring no external power,**

the compact Pulsite Solo has multiple mounting possibilities and can be configured to any flow element. Programming on the Pulsite Solo is quick and simple using just the two front panel keys and following the prompts on the LCD display.

The Pulsite Solo digital flow rate and total indicator adaptable for use with almost any flow sensor

**Battery powered and designed to indicate a variety of pulse input,**

such as coil, reed switch and logic, the Pulsite Solo will take frequencies up to 2 KHz and scale them to display rate or total. The scaling factors are adjustable from 0.01 to 9999 and the time base is selectable as seconds, minutes or hours. This versatile indicator can also be externally dc powered if required for use with electronic sensors.

**Available as a panel and surface mounted unit,**

the IP64 compliant Pulsite Solo is a reliable and long-term display unit proven across a wide range of operating environments. When solely powered by the replaceable battery, the Pulsite Solo can operate in excess of 5 years when used as a flow totaliser. As a digital flow rate measuring instrument, the battery life of the Pulsite Solo depends on the duty cycle but will still provide several years of operation.

**Titan Enterprises Ltd**

Drawing upon over 40-years of flowmeter innovation - Titan Enterprises Ltd is a manufacturer of high-performance solutions including the Atrato ultrasonic flowmeter, Oval Gear flowmeters, low flow Turbine flow meters and a flow instrument range. Titan's company philosophy of "pushing the envelope by trying to do things a little different and better" has resulted in sales of over 500,000 products into 50 countries worldwide and a repeat purchase percentage of 95%. All flowmeters produced by Titan Enterprises are designed and manufactured to ISO9001 and calibrated to an uncertainty of  $\pm 0.25\%$ .
